Captures of the interface and the demo

Authors: Fabricia Carpenter Soraire and Luna Carpenter Pires

Document CS-DOC-04 · Version 1.0 · 2026-09-23

CONFIDENTIAL — restricted to authorized recipients

Platform screens

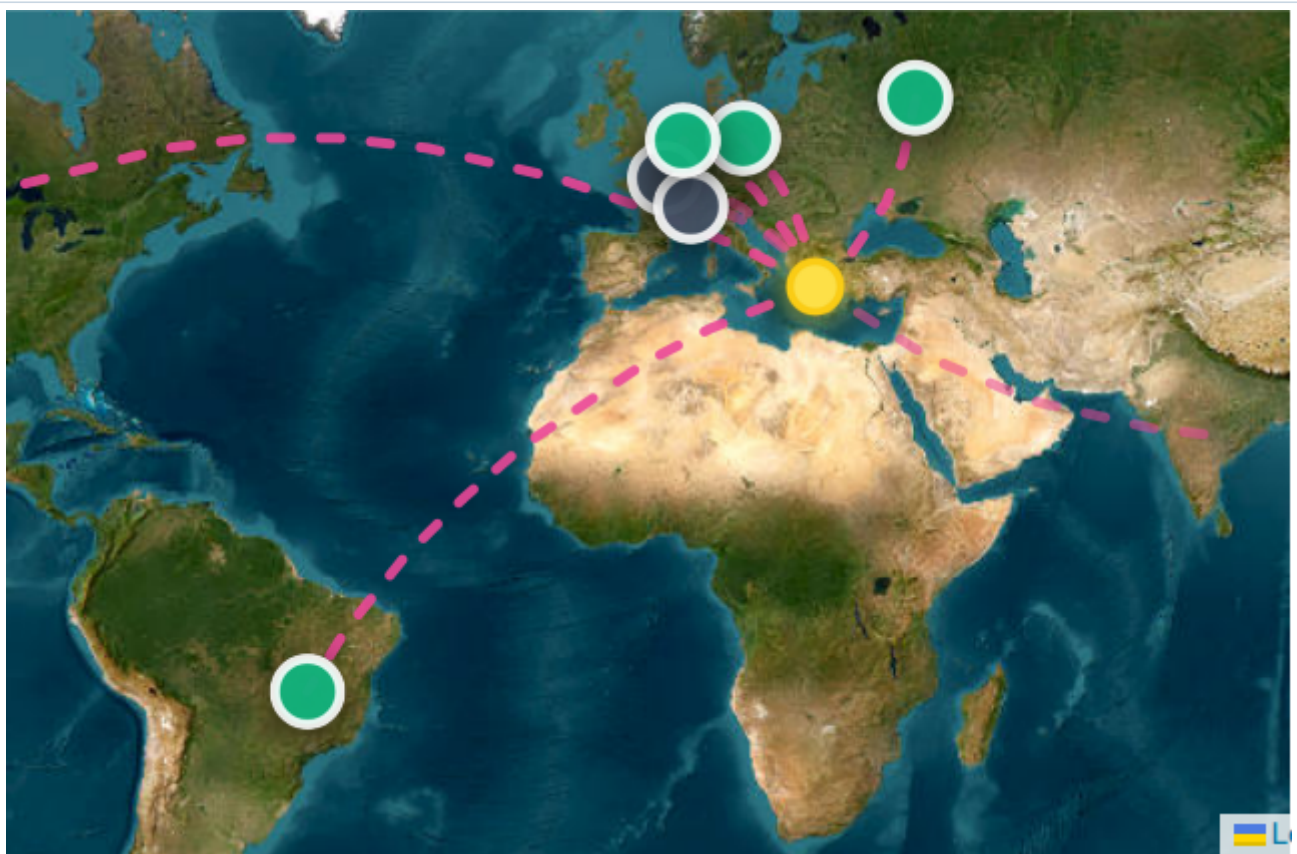

Real captures of CertSigner's public interface (v15 home page and the interactive proof-generator demo). The screenshots show the interface in Portuguese.

Screen 1 — Home page: “Prove your idea existed first.” Public, private or encrypted deposits and continuous monitoring of proofs.

Screen 2 — Proof generated: SHA-256 hash, receipt with UTC date and “deposit confirmed” in 6 of 6 sources.

Screen 3 — Global Activation Pattern: map (Leaflet) with the deposit points and the proof's connections across countries and continents.

FONTES DE VALIDAÇÃO MULTIPLAS

Redundância é segurança

O hash do seu conteúdo é ancorado em diversas fontes públicas reconhecidas internacionalmente, reduzindo drasticamente o risco de perda de verificabilidade.

WIPO Patentscope

EPO Espacenet

USPTO Patent Center

INPI Brasil

Google Patents

OpenTimestamps / Bitcoin

GitHub Public Commits

Outras bases IP globais

A lista exata de fontes é atualizada continuamente para maximizar resiliência e reconhecimento jurídico.

Screen 4 — Multiple validation sources: redundancy as security, with intellectual-property databases, blockchain and public repositories.
